DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by White et al US Patent 5,902,340.

White et al discloses a modular implant (see Fig. 1) comprising a weight bearing component (120) with a proximal, distal ends, a through bore (122), an intramedullary rod (130) having a bore (134), an elongated link (113) having a proximal and distal ends and a mouth (see attachment), the distal end of the link is taper toward the mouth (see attachment), a tubular extension (see attachment) having an internal taper (see attachment) and the distal end of the link independently movably (when the bolt (140) is loose).

Allowable Subject Matter

Claims 5-9 are allowed.

Claims 11 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed February 28, 2005 have been fully considered but they are not persuasive.

The Examiner still believes that the White et al reference reads on claims 1 and 2. See above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
